Professional Summary

Motivated Mobile & Front-End Developer with experience contributing to Android, iOS, and web application development. Skilled in Flutter, Kotlin, and Vue.js with a practical understanding of UI/UX design, API integration, and clean architecture principles. Proven success in remote collaboration, cross-functional teamwork, and mentoring. Passionate about building solutions that improve real-world problems through design thinking and agile delivery.

Experience

Junior iOS Developer at Apple Developer Academy

Feb 2025 - Dec 2025

- Participated in an 11-month intensive program focused on Swift, SwiftUI, and app development best practices.
- Collaborated with multidisciplinary teams to build user-focused iOS applications.
- Engaged in design thinking, prototyping, and product pitching as part of Apple's learning methodology.

Frontend Developer Intern at Qiscus (Remote)

Jul 2024 - Dec 2024

- Developed an intent classification visual builder with Vue.js/Nuxt.js, reducing setup time for client configurations by 40%.
- Collaborated with the product team on Qiscus Superadmin interface enhancements, improving user experience.
- Documented development workflows to improve onboarding and consistency across team members.

Frontend Developer Intern at Luarkelas (Remote)

Jun 2024 - Sep 2024

- Maintained and added new features to the Luarkelas website using React.js, ensuring optimal performance and responsiveness.
- Integrated core learning modules for the Luarkelas Academy platform using Next.js.
- Diagnosed and resolved cross-browser compatibility issues, enhancing accessibility.

Android Development Mentor at Bangkit Academy

Aug 2023 - Dec 2024

- Mentored 75 participants across 3 cohorts, contributing to an average 92% graduation rate.
- Delivered a total of 59 personalized mentoring sessions and 42 live training classes, consistently enhancing learner confidence and skill retention.

- Maintained an average satisfaction rating of 4.69/5.00, reflecting strong engagement and mentorship effectiveness.

Android Developer at PT Securetasks Global Teknologi (Remote)

Nov 2022 - Jul 2023

- Built “Team Hub,” a Flutter-based team collaboration app used by 50+ users.
- Developed a cybersecurity job matching app using Flutter and Android Native (Kotlin).
- Researched Wazuh for mobile development integration and insights.

Android Development Student at Bangkit Academy

Feb 2022 - Jul 2022

- Completed an industry-aligned curriculum focused on Android development with a final score of 89.48.
- Mastered Kotlin fundamentals, SOLID principles, MVVM, Clean Architecture, and Android intermediate techniques.
- Built a COVID-19 vaccine recommender app (VALO.AI) as a capstone project in collaboration with the Machine Learning and Cloud teams.
- Earned 5 Dicoding certificates and the Google Associate Android Developer Certification.

Web Developer at Neosantara

Aug 2020 - Jan 2021

- Created dynamic front-end features using Svelte.js for a school platform.
- Built a Mini Gold Distributor web app with Laravel for managing sales and inventory.

Education

Bachelor of Information Technology Universitas Perjuangan, Tasikmalaya — *Jun 2023 - May 2024*
GPA: 3.92

Bachelor of Information Technology (Transferred) STMIK Tasikmalaya — *Sep 2019 - Mar 2023*
GPA: 3.8

Certifications

- Cloud Practitioner Essentials – Dicoding Indonesia, Jan 2025 - Jan 2028
- Belajar Fundamental Aplikasi Web dengan React – Dicoding Indonesia, Jul 2024 - Jul 2027
- Menjadi Flutter Developer Expert – Dicoding Indonesia, Jul 2024 - Jul 2027
- Google Associate Android Developer Certificate – Jul 2022
- Android Developer Expert – Dicoding – Sep 2022

Tech Stack

Mobile Dev: Flutter, Kotlin, SwiftUI, Dart, Jetpack, ARCore

Frontend: Vue.js, Nuxt.js, React.js, Next.js, Svelte.js, Tailwind, Bootstrap

Backend & Tools: Laravel, Firebase, MySQL, Git, REST API, SwiftData, CI/CD
Others: UX Research, Agile, Clean Architecture, MVVM, WebView Integration

Soft Skills

Communication • Leadership • Mentoring • Teamwork • Problem-Solving • Time Management • Adaptability • Attention to Detail • Growth Mindset

Key Projects

Shiny Shift

Mar 2025 – Apr 2025 | SwiftUI, SwiftData

Transformed manual scheduling into a seamless one-tap experience for district cleaning services. Streamlined workforce planning with smart automation and user-first design.

- One-Tap Scheduling: Automatically generates optimal schedules, eliminating manual input.
- Intuitive Interface: Built with SwiftUI and tested for simplicity and usability.
- Smart Data Handling: Managed secure scheduling data with SwiftData.

ASANTI

Oct 2024 – Nov 2024 | Flutter, Firebase

Developed a mobile health app to assess stunting risks in mothers and babies.

- Stunting Status Checker: Uses input indicators to deliver real-time insights.
- Seamless UX: Flutter-powered design ensures an accessible user experience.
- Firebase Integration: Enables smooth data sync and storage.

PREDIKTER

Nov 2023 – Mar 2024 | Flutter, Kotlin, ARCore

Built an AR-based Android app to help farmers estimate cattle body weight.

- AR-Based Prediction: Leverages ARCore and machine learning for analysis.
- Cross-Tech Stack: Developed using Flutter and Kotlin.
- Academic Contribution: Published in a SINTA 5-accredited journal.

VALO.AI – Bangkit Capstone Project

Jun 2022 – Jul 2022 | Kotlin, TensorFlow Recommenders, Google Maps SDK

Built a personalized vaccination recommendation app.

- Vaccine Recommender System: Uses ML to suggest COVID-19 vaccines.
- Location-Based Services: Find nearby clinics with Maps integration.
- Cross-Team Collaboration: Worked with Cloud and ML teams.
